ORCID: 0009-0006-8532-163X

EDUCATION

Aryabhatta College, University of Delhi
B.A. (Hons.) Economics, Minor in Mathematics

2022–2026
Grade:: *First Class with Distinction*

SKILLS

- **Econometrics:** Panel Data Analysis (Fixed Effects, Random Effects, FMOLS), Time Series (VAR, Moving Averages), OLS, Causal Inference (DiD, RCTs), Forecasting (SES, Holt's methods).
- **Data:** Panel Dataset Construction (World Bank, ADB, IMF, RBI), Large scale data cleaning and compilation.
- **Tools:** R, STATA, EViews, Tableau, LaTeX, Git/GitHub, Excel, Typst.
- **Languages:** Hindi (Native), English (Fluent).

RESEARCH EXPERIENCE

Undergraduate Thesis

Aug 2025 – May 2026

Carbon Emissions in Africa: EKC and Regional Integration

Supervisor: *Prof. Deepika Goel*

- Compiled a balanced panel dataset of 9 African countries (2006–2022) with environmental, economic, and governance indicators sourced from World Bank and Asian Development Bank.
- Used panel cointegration methods to identify how regional trade integration, environmental cooperation, and institutions affect carbon emissions — found cooperation reduces emissions, trade openness increases them.
- Established a U-shaped income-emissions pattern challenging the standard EKC hypothesis.
- Scored Outstanding (10/10) in both semesters; presented at UGREE 2026, University of Delhi.

PROJECTS

Econometric Analysis of INR and Exchange Rate (R)

- Compiled 127 monthly observations from RBI and government sources across 10+ years; constructed a growth-cycle measure from industrial production data.
- Modeled how domestic inflation and industrial activity drive INR/USD movements using OLS — found inflation linked to depreciation, growth momentum linked to appreciation.

VAR Modeling of Macroeconomic Data (R)

- Analyzed short-run dynamic relationships between exchange rate, inflation, and output across 75 monthly observations.
- Built a vector autoregression model identifying how macro indicators interact over time; all diagnostic checks passed.
- Found inflation's own lag and output gap significantly predict inflation dynamics; no evidence of Granger-causal relationships between the three variables.

University Rankings Analysis (Tableau)

- Designed interactive Tableau dashboard for visualizing and analyzing global university ranking data.

POSITIONS OF RESPONSIBILITY

Co-Founder & VP, Placement Unit (Economics Dept.), Aryabhatta College

Sept 2025 – Apr 2026

Established and led the unit to connect economics students with internship and career opportunities.

Editor-in-Chief, Mind Over Matter (Economics Society), Aryabhatta College

Oct 2024 – Aug 2025

Led the editorial team, managing content strategy, publication processes, and project communications.
